**Aphasia** is a condition that robs you of the ability to communicate. It can affect your ability to speak, write, and understand language, both verbal and written.

**Aphasia** typically occurs suddenly after a stroke or a head injury.

---

**FAST FACTS**

- **2 Million+** people in the U.S. are currently experiencing Aphasia
- **180,000** Americans acquire the disorder every year

**Aphasia** can impact anyone of any race, age, or gender

---

**RECOVERY FROM APHASIA IS POSSIBLE THROUGH TREATMENT**

Treatment options can include:

- One-on-one speech therapy with Speech-Language Pathologists (SLPs)
- Treatment may also involve working on a digital therapy app to target specific skill areas and practice conversation skills.

---

**FAMOUS PEOPLE WHO HAVE HAD APHASIA**

1. Dick Clark
2. Ralph Waldo Emerson
3. Dwight D. Eisenhower
4. Gabby Giffords
5. Randy Travis
6. Sharon Stone
